MEMORANDUM FOR: Chief/TAS/DPD

SUBJECT : [] Process

25X1

1. Your memorandum of 9 July 1960 has been received and your interest in the subject process noted.

2. I think that our interest in this process and our anticipation of its potential value has already been responded to in rapid fashion. Specifically, since the time of my first memo to you I have been informed that [] has purchased all rights to the [] process and the personnel involved therein and has placed a thick security blanket over all experiments to date as well as their plans for the future.

3. We, of course, will seek to penetrate this security in connection with our normal dealings with [] but cannot promise to add any more details than those that we have already provided you in our last memo. If this now sounds even more exciting to you, you may wish to try another tack in your dealings through TSD (if any) with []

4. I personally believe that something very exciting is developing in this field and it might be worth noting to Dr. Land in one of his discussions with Mr. Bissell.
